

For its security, economy and efficiency, SAFEPAK is the most used sealable bag system for sending documents, mail, money, medicine etc...

The materials used are of high quality, recyclable and non-polluting
Our bags incorporate different patented security locking systems, which applied to the zip, display signs of unauthorized opening

Our bags provide different patented closing systems, applied to the zipper, which make the non desired opening evident

We supply a wide range of models, sizes and colours suited to each specific application
